

Chemical Waste Disposal Services

Our aim is to provide customers with an efficient and cost effective solution for the safe transportation and disposal of all types of hazardous chemical waste, whilst providing a service that minimises the impact upon the environment.

We offer a selection of disposal services, (detailed opposite), tailored to the customers own requirements. These range from collecting pre-packed chemicals to a bespoke disposal service where our fully certified ADR employees will manage the packaging, transportation and documentation of the consignment.

Our commitment to providing our customers with a safe, clean and ethical disposal of environmentally and personally hazardous materials is of upmost importance to us"

- All staff are fully ADR certified
- Environment agency certified and audited
- Licence details:
Waste carrier Licence Number/
CB/ MN5774RZ

We offer 3 chemical disposal packages, these are tiered as follows:

- Platinum
- Gold
- Silver

All the packages are configured to include different levels of consultancy, onsite assistance, and pricing, from a comprehensive 'all inclusive' platinum package to a simple 'collection and disposal only' silver package. See full details overleaf

We can also manage routine waste streams through a bespoke service that can tailored to individual requirements. This bespoke service includes:

- Laboratory smalls
- 120 – 205 litre drums
- IBC's (1200 litres)
- Brokered tanker service.

For any other requirements please feel free to contact us on the details provided below.

Chemical Waste Removal Packages

All the packages will be handled by an ADR certified driver.
The services include:

Platinum Package

A fully enclosed package which includes:

- Individual onsite listing of chemicals
- Separating and packing chemicals, including UN specification packaging materials
- All documentation
- Transportation
- Disposal at local waste station

Gold Package

Requires a customer supplied inventory of waste chemicals, this package includes:

- Separating and packing chemicals, including UN specification packaging materials
- All documentation
- Transportation
- Disposal at local waste station

Silver Package

Requires a customer supplied inventory of pre-packaged and documented waste chemicals, this package includes:

- Documentation
- Transportation
- Disposal at local waste station

We are also able to offer an option to design a bespoke service which suits your own requirements. For more information please feel free to contact us on the details provided below.
